PCN-2017-07-03

July 31, 2017

Dear Valued TRINAMIC Customer,

this is to inform you that a new CANopen firmware version has been released for the modules listed in table below.

New batches of the modules will be delivered together with this new release V3.20. Modules already shipped can be updated to this new release using the provided firmware update feature of the TMCL-IDE. Prior releases are still available on the corresponding product pages on www.trinamic.com.

Changes:

- Cyclic synchronous position mode (CSP) included.
- Save parameter function fixed.
- Documentation update.

This change is classified as a minor change.

Products Affected
