

## Product Change Notification

### TE Connectivity

Product Change Notification: P-21-020307

PCN Date: 15-JAN-21

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

**General Product Description:**

RT-770 NBCCS Harness Tubing

**Description of Changes**

In specification RT-770\_Type-1, the maximum weight uptake for bore cleaner (MIL-PRF-372) was revised to reflect the change in the formulation of the fluid.

**Other attachments:**

[ENG\\_SS\\_RT-770\\_Type-1\\_4 Draft](#)

**Reason for Changes:**

New specification. The MIL-PRF-372 specification for bore cleaner was changed in revision F, decreasing the pour point of the liquid from -3 C to -45 C. This change in specification resulted in a change in the formulation of the bore cleaner, affecting the weight uptake of the fluid by RT-770 tubing after fluid immersion conditioning. See Table 3 in specification RT-770\_Type-1\_v4 for maximum weight uptake values.

**Estimated Dates:**

Last Order Date (Obsolete Parts Only):

First Date To Ship (Changed Parts Only):

Last Ship Date (Obsolete Parts Only):

Last Date for Mixed Shipments: (Changed Parts Only):

No Mixed Shipments
